

A Love Song Plays Within

Lyrics and Music by Holly Circle and Jimmy Steffen

Listen closely, listen in
A love song plays within

Playing softly, day or night
A melody so filled with light
Reminding us that we already have the key
To all our dreams

Listen closely, hear the voice
It says, the key to life is choice
Moves you with a simple grace
And holds you in its warm embrace
Releases all your fears
The message is so clear
Listen in

Not long ago I felt my heart crying
Trying to find my own way
Living my life looking outside for answers
And feeling more lost along the way

Then I came back home
I thought I was alone
The silence was all I could find
Then the melody played
And my fears washed away
The music's been there all the time

Listen closely, listen in
Listen closely, listen in
Playin' a love song, a love song plays within
Playin' a love song, a love song plays within
Playin' a love song
