

I Am The Silence

Lyrics and Music by Holly Circle and Jimmy Steffen

I am the silence, I am the wind
I am this journey that never ends
I am your longings, I am the sunrise
All of creation I see through your eyes

So please don't doubt – I'm always with you
Guiding your way, easing your pain
Don't let the fear set in, just come to the silence

I am your wisdom, your inner knowing
A stream of Light that's always flowing
I am the answer, I am your prayer
You can always feel me, I'll be right there

There is no doubt – I live within you
Your constant guide, your compass inside
Don't let the fear set in, just come to the silence
Come to the silence, come to the silence

I am the reason you are unfolding
A new love's dawning is what you're holding
I am the silence, a sacred singing
A spirit calling, a new beginning

There is no doubt – I live within you
Don't let the fear set in

Just come to the silence
Come to the silence, come to the silence

I am, I am, I am
I am, I am, I am
